

Keep the cherished memories of your loved one alive and close to your heart while preserving their ashes in a beautiful piece of blown glass.

The styles are timeless and versatile. The art I create for you will have its own unique characteristics, as no two pieces of art are ever the same. To make your piece more meaningful, customization is available to incorporate specific colors or to include images such as a name, fingerprint, or tattoo. Visit RedManxStudio.com for a larger view of samples.
